What Ability “camps” provide participants with 1:1 support in a group environment. A typical stay is two nights and three days of non-stop fun! Here they are able to build meaningful friendships and develop independence through fun-filled social opportunities. What Ability is an approved Specialised Substitute Residential Care provider and supports participants in accordance with all relevant SSRC requirements. The unique experience is aimed at:

- Exposing participants to new and different age appropriate activities
- Facilitating interactions and engagement with others of a similar age and interests
- Providing unique social opportunities
- Supporting development of meaningful friendships
- Increasing independence in self care skills

Locations and properties

Camp properties are typically rented through AirBnB and always go through a safety audit. What makes a house special for us? We try and pick big houses with lots of space... and a nice big kitchen!

Download your local calendar from our website with dates for your next camp!

Types of Camps

We like to group our camps into three categories; All Ages, Under 18s only and Over 18s only. This lets us tailor our camps to your needs, and wants! You'll spot a Girls Only, Boys Only and Halloween camp in the calendar this year.
